

THE EVENING BULLETIN.

VOLUME X.

MAYSVILLE, KY., FRIDAY, AUGUST 28, 1891.

NUMBER 237.

PROFESSIONAL AND BUSINESS CARDS.

FRANK P. O'DONNELL,

ATTORNEY

And Counsellor at Law. Practices in Mason and adjoining counties. Office in building of Wadsworth & Son.

L. W. GALBRAITH,

ATTORNEY

And Counsellor at Law. Practices in the courts of Mason and adjoining counties. Prompt attention paid to collections.

W. S. YAZELL,

Second Street, Fifth Ward,

PHYSICIAN AND SURGEON.

Office opposite Collins & Rudy's Planing Mill.

SAMUEL PANGBURN,

North Side of Third Street,

PHYSICIAN AND SURGEON.

Office 31 Third Street, West of Market.

D. R. G. SMOOT,

—Homeopathic—

PHYSICIAN AND SURGEON.

Office Hours—7 to 9 a. m., 1 to 3 p. m., 7 to 9 p. m. Office, No. 34 Second St., late Dr. Holton's office.

C. W. WARDLE,

DENTIST.

ZWEIGART'S BLOCK.

DEWITT C. FRANKLIN,

DENTIST.

WEST SUTTON STREET.

T. H. N. SMITH,

DENTIST.

EAST SECOND STREET.

DR. PARIS WHEELER,

Office at Daulton Bros.' Stables,

VETERINARY SURGEON.

Cures all cases of lameness or no charge. Has a blister from French school that will not blanch.

J. J. FITZGERALD,

Successor to T. J. Curley,

SANITARY PLUMBER

And Steam and Gas Fitter. All work done in the best manner. Satisfaction guaranteed.

M. R. GILMORE,

Granite, Marble and

FREESTONE WORKS.

All kinds of Monumental work done in the best manner. Second street, above opera house.

A. SORRIES,

Second Street, Near Limestone,

LOCK AND GUNSMITH.

Repairing of all kinds done promptly and on reasonable terms.

S. D. THOMPSON,

Adjoining P. J. Maley's Grocery,

LOCK AND GUNSMITH.

Locks adjusted, Keys fitted, Guns, Bicycles, etc., repaired. House Smithing a specialty.

C. F. ZWIGART, JR.,

DAILY MEAT MARKET.

Corner of Second and Sutton Streets.

I HAVE OPENED A

JUNK HOUSE

In Dodson's coal yard on Wall street. Will pay 50 cents for Country Rags, 50 cents for Rot Iron, from 25 to 40 cents for Cast Iron, 40 cents for Dry Bones, and buying all kinds of Metal—Copper, Brass, Zinc and Rubber, paying fancy prices. H. OBERSTEIN.

"HELLO!"

MAYSVILLE, SARDIS AND MT. OLIVET TELEPHONE COMPANY.

Messages promptly delivered. Maysville office at Parker & Co.'s livery stable.

ANOTHER BATTLE

Took Place in Chili Near Valparaiso Yesterday.

ITS RESULT NOT FULLY KNOWN.

President Balmaceda's Troops Attack the Insurgents, Overthrowing Them and Ending the Great War Which Has Been Raging in That Republic.

PARIS, Aug. 28.—The Chilean legation has a dispatch from Buenos Ayres stating that the Balmacedist troops overthrew the insurgents near Valparaiso and cut off their escape to the ships, making their unconditional surrender necessary.

Just Before the Battle.

NEW YORK, Aug. 28.—The Herald's Valparaiso dispatch, dated Aug. 27, said:

President Balmaceda will probably attack the insurgent army this morning. It is impossible to learn the position and movements of the insurgent forces but the report that they have taken up a strong position on the hills above the race course at Vina del Mar is probably true. It is thought they have received reinforcements.

Balmaceda in the meantime has lost no time in strengthening his position. Reinforcements have been constantly arriving, until now he has within reach fully 20,000 armed men. From the condition of affairs here, and the movements of troops, it is generally believed that Balmaceda will attack the revolutionary army in force today and endeavor to end the war, so far as it can be done by a victory or defeat in front of Valparaiso.

As Reported to Washington.

WASHINGTON, Aug. 28.—The following cablegram was received here last night by the Chilean representatives of the constitutional or insurgent party, dated at Iquique, August 27:

The constitutional forces continue advances. We have confidence in the defeat of Balmaceda. Contradict the news given by the dispatchers' agents. ERRAUZRIZ.

Before Sunday's Engagement.

NEW YORK, Aug. 28.—The following cablegram has been received by Charles R. Flint, from Valparaiso, showing the conditions before Sunday's battle.

The insurgents have been cut off from their vessels and are between two divisions of the government army, which is being rapidly augmented by fresh arrivals of troops by railroads from the interior. It is expected that the defeat of the insurgent army will result in bringing the revolution to a close, although the fleet could retire to the north and continue the rebellion, as the government could not reach them by land across the desert, and until the new cruisers arrive from Europe the government would not be in a position to attack the rebel fleet.

FROST IN THE NORTHWEST.

In Some Places the Temperature Was Below the Freezing Point.

CHURCH'S FERRY, N. D. Aug. 28.—A very heavy frost Wednesday night did damage to green uncut grain. The thermometer registered 28 degrees. Ice was found on the heads of wheat in many fields. Farmers tried sousing fires to a very large extent, but some think they did not commence soon enough, some of them waiting until almost the freezing point before starting the fires.

At Pembina, N. D., it was 4 degrees below freezing Wednesday night. Frost injured the wheat considerably.

In Manitoba.

WINNIPEG, Man., Aug. 28.—The much feared frost came Wednesday night in rather formidable shape. The thermometer was from 2 to 5 degrees below freezing all over the province, and there can be no doubt much damage was done.

In Minnesota.

ST. VINCENT, Aug. 28.—It was 32 degrees Wednesday night, but there was apparently much heavier frost than last Saturday night. About 70 per cent. of the crop is harvested.

Small Conscience Contribution.

WASHINGTON, Aug. 28.—A conscience contribution of \$1 from an unknown source was yesterday received at the treasury department.

BRIDGE FALLS.

One Man Instantly Killed and Another Seriously Injured.

CUMBERLAND, Md., Aug. 28.—Yesterday afternoon at 4:30 o'clock, while workmen were engaged repairing the Cumberland street bridge, which spans the Baltimore and Ohio railroad tracks at that point, the bridge began to sway to and fro. The workmen ran for their lives, but two, Tolbert Minnick, aged twenty, and Walter Miller, aged twenty-four, were unable to get off in time, and as it fell with a crash, the men went with it, and were buried in the debris.

When their companions recovered from their fright and hurried to them, they found that Minnick had been instantly killed, and Miller seriously injured. The latter was with great difficulty gotten out from under the wreckage. The bridge was a wooden structure 150 feet long, and was built in 1872. It had been condemned and has been closed for some time past.

Historian Draper Dead.

MADISON, Wis., Aug. 28.—Dr. Lyman C. Draper, the noted historian, died in this city at 9:30 o'clock Wednesday evening. Dr. Draper suffered a stroke of paralysis a week ago last Sunday, since which time he did not rally. His demise will be mourned by historical students throughout the country.

PARK PLACE DISASTER.

Funds Being Raised for the Families Who Lost Relatives.

NEW YORK, Aug. 28.—The relief committee appointed by Mayor Grant to raise funds for the families who lost relatives in the Park place disaster met yesterday. The secretary reported \$5,042 on hand. It was decided to allow each family \$50 a month. The lithographer's union has already raised a good sum for the families of those lithographers who lost lives.

Yesterday afternoon Coroner Hanley, accompanied by Assistant District Attorneys Bedford and Townsend, and a clerk and a stenographer, arrived at the Church Street police station to empanel a jury. There were over twenty persons subpoenaed to act as jurors in the inquest regarding the deaths of the victims of the Park place disaster. The following were selected and sworn in: Charles H. Pleasants, wholesale druggist; Joseph Lamb, church decorator; Patrick Rooney, foreman of The Tribune press room; Patrick Hall, real estate; Walter Dickson, architect; John A. Leo, architect; William E. Gifford, chemist; Theodore L. De Vinne, printer; James W. McBarran, machinist; Langstaff W. Crow, real estate; Timothy Hayes, printer; Albert R. Ledoux, chemist.

THE ST. CLAIR RIVER TUNNEL.

To Be Formally Opened September 10 with a Big Blow-Out.

SARNIA, Ont., Aug. 28.—The Grand Trunk tunnel under the St. Clair river at Sarnia will be formally opened on Saturday, Sept. 10. The opening ceremonies will be most brilliant in their character. Sarnia, on the Canadian side, and Port Huron, on the American side, will give up the whole day to celebration and enjoyment. Arrangements are now being made for an opening, which will include a banquet in the tunnel, at which President Harrison, many of the American state governors, the governor general of Canada, Sir Henry Tyler, president of the Grand Trunk railway, and other Grand Trunk officials will be present. The tables will be laid on the boundary line, and during the entertainment and banquet the Thirteenth Battalion band, of Hamilton, will play a program of music. On the Canadian side the band will play "God Save the Queen," and on the American side the "Star Spangled Banner."

A Neglectful Doctor.

AKRON, O., Aug. 28.—Dr. C. L. Manderbach, a well known physician, convicted after a ten days' jury trial for cruelty to his wife, was sentenced Thursday morning to pay a fine of \$75 and the costs, which are \$400. Mr. Manderbach testified that his practice was worth \$7,300 a year, yet the testimony shows that his invalid wife was left without a nurse, the doctor protesting that he was too busy with his practice to give her attention. The case excited much attention, some of the best known ladies in the city backing the prosecution. Manderbach's lawyers will carry up the case.

Saloon Burned by Incendiaries.

INDIANAPOLIS, Aug. 28.—Early yesterday morning Harding's saloon building, in the suburb of west Indianapolis, was discovered to be on fire, and when the people of the village assembled they found that the pumps at the three wells near by had been broken, and they were compelled to stand idle and see the saloon and a business block adjoining it go up in smoke. The loss was \$6,000, and all the indications point to incendiaries. This is the fourth fire that has occurred in the suburb within forty-eight hours, all of which were incendiary.

Fast Time on the Race Track.

INDEPENDENCE, Ia., Aug. 28.—Fully 30,000 people were on the ground yesterday to see the great five-year-old race. It was won by Nancy Hanks in straight heats, the first and third heats in 2:12, the fastest heats ever made in a race, and the race goes on record as being the fastest three heats ever made in a race. The free-for-all pace was won by Roy Wilkes in straight heats. The three heats were the fastest ever made by a stallion in a race, and the second was equal to the fastest heat ever paced in a race.

Rain Experimental Party.

MIDLAND, Tex., Aug. 28.—General Dyrenfurth, Professor Carl Myers and others of the rain experimental party left for Washington yesterday. Mr. John T. Ellis, and George T. Castle, the balloonist, will remain in charge of the operations. They will shortly proceed to El Paso and there continue the experiments on a grand scale. General Dyrenfurth will be in El Paso in time to superintend the experiments there later. He will probably go to southwestern Kansas to make rain there.

Boomers Firing the Grass.

ARKANSAS CITY, Kan., Aug. 28.—The boomers have been moving on the strip in large numbers and yesterday made several attempts to start large fires and destroy the pasture, but the grass is too green and the fires make little headway. Some of the cattlemen are becoming alarmed and are attempting to get their cattle out.

Band Stand Floor Gives Way.

INDEPENDENCE, Ia., Aug. 28.—During the races yesterday afternoon the second floor of the band stand gave way, injuring a number of occupants. Among the injured are Fred Hollister, of Waterloo, Ia., leg broken; Charles Speed, of Independence, head bruised and serious internal injuries, and Pen. Jansons, bruises on head.

Stabbed by a Negro.

DANVILLE, Ky., Aug. 28.—At Junction City, yesterday morning, at about 2 o'clock, Charles Rains, a brakeman on the Cincinnati Southern, was stabbed in the back of the neck by a negro, who got on at Lexington. Rains is badly hurt, and the negro gave himself up. Rains lives at Rowland.

DOWN EIGHTY FEET.

Passenger Train Goes Through a Viaduct,

KILLING TWENTY-THREE PEOPLE

Twenty-Five Others Injured, Several of Them Fatally—The Accident Supposed to Have Been Caused by Spreading Rails—List of the Killed and Injured.

STATESVILLE, N. C., Aug. 28.—The most disastrous railroad accident known in the history of North Carolina occurred on the Western North Carolina railroad, two miles west of this place, at 2 o'clock yesterday morning, twenty-three persons having been taken from the wreck dead, or have died since, and twenty-five wounded.

The westbound passenger train on the Western North Carolina railway went off the track at Boston's viaduct, two miles west of Statesville. Eighty-five passengers were on board. The entire train went down eighty feet. Many of the Asheville firemen returning from the state tournament at Durham were killed. The viaduct is of iron, and spans a small stream.

The dead are as follows: Engineer William West, of Salisbury. Fireman Warren Fry, of Salisbury. Baggage-master Hugh K. Linster, of Statesville.

W. M. Houston, merchant, of Greensboro, N. C.

Perry Barnett, of Asheville.

Samuel Gorman, of Asheville.

Charles Barnett, of Asheville.

Tule Thifer, traveling salesman.

W. J. Nisher, of Campbell, S. C.

W. E. Winslow, of Asheville.

Davis, of Statesville.

J. B. Austin, of Hickory.

Lady unknown, ticket in pocket reading, Mrs. George McCormick and mother, Elmwood to Alexander.

Mrs. White, of Memphis.

Unknown lady, ring on finger, inside of which is engraved "L. H. W. to L. L. R."

An unknown colored man.

Mrs. William Pool, of Williamston, N. C., drowned.

T. Brodie, of New York, travelling for a glove house.

Rev. James M. Sikes, of Clarksville, Tennessee.

Dock Wells, colored porter.

Miss Ophelia Moore, of Helena, Ark.

The following were injured:

George Bowley, of Atlanta.

Conductor Spangh, badly hurt, but will live.

Sleeping Car Conductor H. C. Clipper, head cut, arm and ankle sprained.

Colored sleeping car porter.

O. W. Lawson, of Louisville, Ky.

Miss Luellen Pool, of Williamstown, N. C.

Mrs. R. C. Moore, of Helena, Ark.

A. L. Sink and wife, of Lexington; both seriously injured.

B. M. Estes, Jr., of Memphis, hurt but will live.

Flagman Shoaf, of Lexington, N. C., hurt but will live.

John Gaze, of Asheville, N. C., injured; not seriously.

State Auditor George W. Sanderlin, painfully hurt, but not dangerously.

Patrick Ransom, of Northampton county, a son of Senator M. W. Ransom, cut on head; not dangerously.

R. E. Johnson, newsboy.

The following escaped unhurt:

Colonel Bennahan Cameron, of Raleigh, a member of the governor's staff.

Otto Ramsey, of Norfolk, Va.

Worth Elliott, of Hickory.

The train fell from the north side of the track, the engine lies partly on the embankment on the west side. The first-class coach lies on top of the second-class coach.

It is supposed that as the engine was making twenty-five to thirty miles an hour, on a down grade, as it struck the bridge, the track spread.

Engineer West was found pinioned under his cab. Within arm's reach of him were the bodies of two female passengers. How their bodies got from the first-class coach to the engine will never be known.

Miss Luellen Pool held the head of her mother out of the water until her strength was exhausted, when the head dropped and the mother was drowned.

Parts of the sleeping car and of the first-class coach are in the water. Superintendent Bridgers was not aboard. His car was being hauled empty to Asheville.

A car load of convicts has arrived from Newton, and the wreck is being cleared. The bridge is not damaged in the least, and trains will soon be running over it.

Accommodation Train Wrecked.

RUSH CITY, Minn., Aug. 28.—The Grantsburg accommodation train on the St. Paul and Duluth railroad was wrecked about five miles this side of Grantsburg yesterday afternoon. The train was about half an hour late, and was thundering along at the rate of forty miles an hour, when a freight car jumped the track, turning completely over. The passenger coach at the rear was derailed and dashed into the ground about four feet. The passengers, twenty in number, were thrown in all directions, and it is nothing short of a miracle that some were not killed. Six passengers were more or less injured. All the passengers were more or less shaken up, but these are the only ones who needed medical assistance.

The House of Ruth.

ST. LOUIS, Aug. 28.—The quadrennial convocation of the House of Ruth, an organization among the female members of the households of colored Odd Fellows, opened its sessions at the Third Baptist church in this city. Delegates from all the states were present to the number of seventy-five. Grand Worthy Superior J. W. Grant, of Nashville, presiding. The convocation will continue in session several days.

NEW YORK BANKERS.

They Find Themselves Outwitted by Secretary Foster.

NEW YORK, Aug. 28.—The Herald says:

When Secretary Foster found the gold in the national treasury running low, with the four-and-a-half per cent. bonds due on Sept. 1, he was puzzled to know how to replenish the supply.

The express companies charged seventy-five cents on \$1,000 for shipping currency from the east to the west, and when the demand began to come into the New York banks from the western cities for money to move the great crops all the shipments were at first made that way. The eastern banks, of course, sent legal tenders to their western correspondents.

Then Secretary Foster caused it to be made known to the western banks that the treasury department will ship money to any part of the west for fifteen cents per \$1,000. Therefore the western banks accompanied every draft on a New York bank with an order to ship through the treasury.

When the New York banks went to the sub-treasury in Wall street to deposit the money for shipment they found to their surprise that Assistant Treasurer Roberts insisted upon the deposit of gold coin or gold certificates. When asked if the secretary has issued any order to that effect, Mr. Roberts admitted that there had been no official order, but he said: "It was the practice." The bankers called Mr. Roberts' attention to the fact that it was an entirely new practice to insist upon all gold for such shipment, but the assistant treasurer was obdurate.

The bankers protested, but there was no help for them. The result has been that every New York bank which has received during the last two months an order for currency to supply a western bank has been obliged to deposit against it either gold coin or gold certificates in the sub-treasury in Wall street. Then the government, instead of sending the gold to the west, has simply put it in the vaults and sent out a telegraphic order to the sub-treasury at Chicago, or the nearest government depository to the bank wanting this money to transmit to the bank legal tenders.

So successful has this policy been that the gold reserves in the national treasury have increased about \$12,000,000 in about six weeks. On June 30 the supply of gold in the treasury aggregated \$117,667,722. At present the total is \$129,402,927.

Meanwhile the gold reserves in the New York banks have fallen so low through this strong drain that many bank officers have become somewhat alarmed. There has been a good deal of grumbling within the last week, and inasmuch as there was no immediate prospect of decrease in the demands for currency from the west, there have been several informal conferences in bank parlors to determine what concerted action the banks might take in the way of reprisal upon the secretary of the treasury.

There is no doubt that serious action by the bankers in that direction would have been attempted had it not been for the action of Secretary Foster Wednesday. He had kept his eye upon the New York banks. He privately communicated with National Treasurer Roberts, and Wednesday, when bankers sent to the sub-treasury to make their currency shipments to the west they were surprised and pleased to be informed by the suave Mr. Roberts that the "practice" of the department had been changed and that the treasury would accept one-half gold and one-half legal tenders.

This concession satisfied the New York bankers for the time being. It has put a stop for the present to the talk about a systematic combination of the bankers and the secretary of the treasury. In financial circles Wednesday it was admitted that Mr. Foster had been very shrewd and has fairly outwitted the New York banks.

STUDENT LIFE SAVERS.

Inspector Rogers Astounded by What He Saw at Evanston.

CHICAGO, Aug. 28.—Lieutenant H. B. Rogers, the inspector of the United States life saving stations of the Eleventh district, made his annual inspection of the Northwestern University life saving crew at Evanston Wednesday. The beach drill was done in 4m. 26s., a very good record. The last and most interesting drill was the capsizing and righting of the big lifeboat. The Evanston crew, which is composed of wide-awake students in the university, invented a method last year by which the boat can now be righted in an incredibly short time. It consists of leverage with ropes attached to either side of the boat, a very simple contrivance.

Such an arrangement Captain Lawson claims would have prevented the loss of the keeper of the Ariel station last spring who slipped off the bottom of his capsized boat in a storm. The crew capsized and righted their boat Wednesday three times before Inspector Rogers and a large crowd. The best record was 32 seconds. The inspector said if he had been told that it could have been done in that time would not have believed it, and added that they would doubt his report on the record at Washington. He complimented the crew on their splendid condition and superior showing. The members of this crew are Captain L. O. Lawson and seven university students, Messrs. Frank M. Kindig, E. B. Fowler, W. M. Ewing, J. A. Loining, W. L. Wilson, R. N. Hole and W. W. Wilkinson.

A Very Rare Occurrence.

ATLANTA, Aug. 28.—Thornton, Horton and Braswell, the three men who entered the Southern Express car between Atlanta and Macon on the night of Aug. 20, and rifled the safe of \$29,000, were captured last night and the money recovered. It was the first case of the kind in the history of Georgia.

EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.
ROSSER & MCCARTHY,
Proprietors.

FRIDAY, AUGUST 28, 1891.

SEVEN thousand five hundred failures are reported this year against 6,500 for same period last year.

SOME newspapers have been guessing for a week or two at Governor Brown's Cabinet, but they are probably as far off now as they were at the start. They should let up. The new Governor can be relied on to select good material.

Gov. BUCKNER has refused to pardon Hume Clay, the Bourbon forger. Hume struck his relatives and friends for \$75,000 or \$100,000 and now he doesn't want to pay the penalty for his offense. The Governor has done right in not turning him loose on the public.

WHEN Colonel Matt Adams surrenders his office of Railroad Commissioner next summer, he can look back on twenty-seven years of office-holding. And yet we are told that an ex-Federal can get nothing from the Democracy of Kentucky, observes the Louisville Times.

C. C. SHAYNE, who is stumping Ohio for McKinley, says the Republicans will carry the State "if they have to dump the United States Treasury into it." Mr. Shayne has probably forgotten that the election will be held under the secret ballot system, and that boddies and bums will not be "in it" this time.

It is charged that the Republicans would very gladly make the tariff a secondary issue in the approaching national campaign, and some Democrats are playing right into the hands of their enemy. Keep the tariff to the front and let the fight for the masses and against the classes be kept up until a victory is won.

THE Cincinnati Post calls attention to the fact that Massachusetts has issued some interesting statistics from which it is learned that 157 cotton manufacturers, protected by duties ranging from 40 to 100 per cent., employ 71,965 working people, of whom over one-fourth receive less than \$5 a week wages; more than one-third receive less than \$6, and over three-fifths receive less than \$7. "Massachusetts forcibly illustrates how protection protects labor," pertinently remarks the Post.

JUDGE HARRISON, one of the ablest Republicans of Connecticut, has dropped a bombshell in the ranks of his party in that State. He believes that all the candidates on the Democratic State ticket, except Morris for Governor, were elected beyond question last year, and that the refusal of the House to seat them was no more nor less than a steal, pure and simple. In his opinion, boldly stated, it now transpires that he is sustained by his party in New Haven County. Both the Republican papers of the city of New Haven sustain him, and they reflect the feeling of the readers. It is said Judge Harrison is not without friends and supporters all over the State who reason that it is time to call a halt, and that further revolutionary proceedings on the part of the House of Representatives must cease.

The Democrats elected to the State offices nearly a year ago are still kept out of their positions by Republican usurpers.

For the Farmer.

Several Garrard County farmers have sold their growing crops of corn at \$2 per barrel.

Says the Winchester Democrat: "Wheat is worth 95 cents in our local market, but Paris buyers here Monday were paying \$1.00."

It is estimated that there are at the present time in this country more than 16,000,000 cows, valued at about \$350,000,000.

An Owen County farmer realized \$211.50 from the produce and wool of thirty-eight ewes this season, and yet some farmers say sheep do not pay.

Sheep return more fertility to the soil, in proportion to what they take from it, than any other live stock. A man can hardly keep sheep without improving his land.

An early frost will catch lots of the corn in Clark County, says the Democrat, because it was planted late. The Democrat suggests that farmers get their seed corn hereafter from the North, and says it will mature twenty days earlier than that from home-grown seed.

Auctioneer G. C. Goggin reports the following as the result of the sale of the late O. S. Lloyd's live stock and personal property; four-horse wagon, \$72.75; 1 reaper, \$25; 1 mow, \$32; rye, 85 cents per bushel; 8 hogs, \$3.80 per hundred; 20 pigs, \$25; 1 mule, \$71; 1 mule, \$20; 1 horse, \$102.25; 1 horse, \$150; 1 horse, \$106; 1 horse, \$138; 4 three-year old cattle, \$220; 1 cow, \$30; 1 cow, \$26; 2 heifers, \$62; 3 heifers, \$70; 3 calves, \$45; 9 steers, \$310.50.

A PHYSICIAN'S CLAIM.

He Believes the Blood-Serum of the Rheumatic Will Cure Consumption.

Another infallible cure for consumption, which promises to eclipse the Koch Lymph process and perhaps all other treatments that have thus far been put upon the market, is now being experimented with by a well-known Cincinnati physician, says the Commercial-Gazette. The success thus far enjoyed by Dr. Jas. Barnsfather, the author of the latest known method by which the terrible tuberculous bacilli is probably destroyed, without, at the same time, exterminating the life of the patient, has not yet been made a matter of publication, but one thing is certain, that the inventor has so far been encouraged sufficiently to induce him to assert without hesitancy his utter confidence in his scientific discovery.

In speaking to a reporter, Dr. Barnsfather said: "The modus operandi of my discovery is the transfusion of the blood or blood-serum of the rheumatic patient into the body of the consumptive patient. I claim that the rheumatic condition of blood is never found in the consumptive patient and that its germs are so antagonistic to the germs in consumptive blood as to utterly destroy them by transfusion. I have been in Europe all winter, and at the present time have experiments in process to prove the truth of my statements. A number of eminent doctors with whom I had interviews stated emphatically that they had never found the rheumatic diathesis in combination with the phthisical condition in the same patient, consequently I feel encouraged to bring this investigation before my brother physicians in the fond hope that I am recommending a treatment that will cross (I believe) that 'pons asinorum' by which our profession has so long been baffled. In an article published in a Cincinnati medical journal of January, 1890, I gave a few of my experiments with antagonistic bacilli up to that date, but as I was then suffering from a severe attack of 'la grippe,' my remarks were very brief and unsatisfactory, although they contained the essence of my principal experiments. As I thought I would not recover, I hoped that some younger bacteriologists would take up the investigations where I had left them after getting the 'cue' from my papers, but so far I have not seen any articles on the subject.

"Five and a half years ago a friend of mine who was suffering from phthisis, and whose father, sister and brother had all died with the disease, was accidentally inoculated with the diseased material of rheumatism. The patient at that time had consolidation of the lungs above the right nipple, a bad cough, and other unmistakable symptoms. Her lungs were examined by another physician, whose diagnosis was the same as mine. She recovered her health, and is now a well woman, with no cough or sputa, and weighs over two hundred pounds. Here we have beyond a doubt the antagonistic action of the rheumatic bacillus against the bacillus of phthisis pulmonalis.

"One writer says that bacteria constitute the specific cause of rheumatism. The germs by elective affinity find lodgment in the lymph spaces, more especially in synovial sacs. The germs in this situation excite, not true inflammation, but engorgement of the tissues with serious effusion and consequent heat, tumefaction and pain, during the continuance of which a ptomaine is engendered that is carried in the venous blood through the right cavities of the heart to the lungs, where contact with the air or oxygen from the air-cells adds to its toxic or irritant qualities thereby causing it to act as an excitant of true inflammation in the left endocardium. The number of investigators who believe in the miasmatic infection theory is increasing as well as the number of those who believe in its bacterial origin. Bacteria have been found in the blood and there is some degree of truth in the idea, else why should germicides, such as the salicyl and phenol derivatives, be of such great benefit in the treatment?"

"The engorgements and exudations in the articular structures are first in the order of pathological changes and are the direct result of the action of organic germs in the synovial sacs; while the cardiac inflammation is caused by ptomaines resulting from microbic action in the articulations and conveyed thence in the blood to the cardiac structures.

"I have every reason to believe that my discovery will be declared superior to that of Koch's, and that it will be the means of eradicating the terrible disease of consumption. As yet my experiments have not been conclusive enough to convince the public of the value of my finding, but my mind has been unshaken from the start, and my faith in the method increases as the tests gradually progress. In a few months the cure of consumption by the transfusion of rheumatic blood or blood-serum will be known all over the world."

Mr. W. H. McKellup, of the Grand View Hotel, this city, is a patient of Dr. Barnsfather, and takes a great deal of interest in the new discovery.

Turf Topics.

Clorine won the three-year-old stake race at Lexington, and lowered her record to 2:25.

Nancy Hanks won the great race at Independence, Ia., yesterday in straight heats, Allerton second, Margaret S. third. Time—2:12, 2:12½, 2:12.

Pearl Medium started in the 2:27 trot at Lexington, but was drawn at end of second heat. She was not in good condition. The race was won by Cheyenne; best time, 2:18½.

At Independence, Iowa, August 26, Manager lowered his record of 2:14½ and paced a mile in 2:13, breaking the world's record by a second. He now holds the record for the two-year-old and three-year-old pacers. He was sired by Nutwood.

Here and There.

Mrs. John M. Hunt and Miss Katie Hunt are spending a few days at Paris.

Miss Anna Campbell is at home after a visit of several weeks in Adams County, Ohio.

Mr. Joseph O'Donnell and sister, Miss Mary, left yesterday evening on a visit to friends in Cincinnati and Covington.

Mrs. Anna Moran and daughter, Miss Bertha, of Newport, have returned home after spending the week with Mrs. Morford and family.

Mrs. John Pollitt and children left for her home at Bloomington, Illinois, Tuesday, after an extended visit here with her relatives. She was accompanied by Miss Phoebe Roe.

River News.

The Pittsburg coal fleet is passing here.

Eighty citizens of Chattanooga have subscribed \$1,000 each to establish a line of steamers between that place and St. Louis.

This is the season of the year when the denizens of the shanty-boats, which line the banks of the Ohio, live high, on roasting ears, potatoes and melons.

The Congo will pass down at 5 p. m. and the Bonanza late to-night. Due up: Carrollton for Portsmouth at 9 p. m. and St. Lawrence for Pomeroy at midnight.

Base Ball Excursion.

Another match game for a purse of \$500 has been arranged between the Paris Blues and Maysville Browns to be played at the base ball park in Louisville next Sunday. Special train will leave here at 6:30 a. m. Sunday; returning leaves Louisville at 8:30 same evening, arriving here at 1:35 a. m. Monday. The fare for the round trip has been placed at the remarkably low rate of \$2. Those that accept this opportunity of making a trip to Louisville will not only have ample time to see the game of ball, but as they will spend nine hours in the city, there is no reason why they shouldn't take in all the sights that make Fall city, so noted. a27d3t

OUR NEIGHBORS.

TUCKAHOE.

Miss Sue Pickett is visiting in Aberdeen.

Farmers are beginning to cut and house tobacco.

Miss Annie Osborne is visiting friends at Paris and Millersburg.

Miss Judith Carpenter, of Paris is visiting her aunt, Mrs. Calvert.

Miss Glenn Pickett, of Frankfort, is visiting her uncle, Mr. T. Holt.

Many attended "The Blue Ribbon Fair" and enjoyed it immensely.

Miss Alma Osborne is visiting friends in Mexico and Kansas City, Mo.

Miss Retta Smoot has returned from a pleasant visit to friends in Maysville.

Miss Clay, of Helena, and Miss Gault, of Murphysville, are the guests of Miss Mattie Pickett.

Mrs. John Sparks, nee Osborne, of Kansas City, with her family of small children, are visiting her brother on Tuckahoe.

Crops on Tuckahoe Ridge, of all kinds, were never better. The trees are bending to the ground with their burden of fruit. Truly Providence has blessed us with health and plenty—a most bounteous season.

How to Cure a Pain in the Stomach.
We made use of Chamberlain's Colic, Cholera and Diarrhoea Remedy on two occasions for pain in the stomach. Result satisfactory in a very short time after taking the medicine. I hesitate not in giving my opinion in favor of the medicine. At least it has done all claimed for it as far as we have tried it.

E. D. Book, Blain, Perry County, Pa.
For sale by Power & Reynolds.

Bourbon Fair.

The fifty-fourth annual fair at Paris will be held next week, commencing Tuesday and closing Saturday. The Kentucky Central will sell round trip tickets at all stations during the fair at greatly reduced rates. Trotting races each day. Passengers from Maysville and intermediate stations can attend the fair and return home same day on regular train.

THE MARKETS.

Cincinnati Tobacco Market.

(Wednesday.)
Breaks very large. There was a good attendance of buyers, but the demand hardly seemed commensurate with the offerings, and a rather easy feeling prevailed.
Trashes and lugs continue in very fair demand, and while prices are a shade off from yesterday, still these grades are bringing good prices, particularly where color is met with.
Common and medium grades of leaf are in rather poor demand, and the market is slow and dull.
Good and choice grades are in good demand and prices are steady and reasonably firm.

Special train will leave Winchester at 5:30 p. m. daily, connecting at Paris with regular trains for all stations on the Maysville division.

MUST ANSWER.

Alleged Middlesborough Lynchers Indicted by the Grand Jury.

Prominent Citizens and Officials Are Among Those Put Under Bond.

A dispatch elsewhere gives some particulars of the lynching recently at Middlesborough, and the indictment this week of several officials and prominent citizens of the city for murder, the charge growing out of said lynching.

A Courier-Journal special from Middlesborough says: "A tremendous sensation is about to explode in this section of the Cumberland mountains.

"The public is familiar with the details of the lynching of Frank Rossimus, formerly of Cincinnati, during the early part of July last. It now appears that Rossimus' friends have been quietly at work raising money from stonemason societies all over the country, and have had detectives at work to ferret out the names of those who composed the lynching party. It is stated that \$15,000 has been already raised, and that as much more will be forthcoming, if necessary, to bring the lynchers to justice.

"John Colson, Sheriff arrived Wednesday night in Middlesborough with a large posse of men to serve warrants upon a number of the leading citizens of the place. They are indicted by the grand jury, now in session, for the murder of Rossimus. The names include Chief of Police Maples and four patrolmen; Frank Pollitt, J. C. Hutcherson, City Attorney, J. Lewis Patton, W. A. Pratt, Ben Hardy, Wm. Bullock, and three members of the Alford Light Infantry, the local military company.

"The accused went up to Pineville Thursday morning and gave bond in the sum of \$5,000 for their appearance at the next term of court. All sorts of rumors are afloat, and one is that one of the men arrested has turned State's evidence. The utmost excitement prevails."

Messrs. Pollitt and Bullock formerly resided at Orangeburg, and Mr. Patton in this city. Their many friends trust the charges will prove groundless.

THE Lexington Press: "The hotels of a city have queer experiences. The proprietor of a well-known hotel told me that when the Town Branch is cleaned out enough revolvers will be found in it to arm a regiment. He says that frequently the sewers running from the hotel to the Town Branch become clogged up, and when an examination is made fire-arms of all shapes and sizes are found to be the cause."

Whoever heard of a Kentuckian—a Lexingtonian especially—throwing away a pistol?

WILLIAM KELLEY MACKAY, who died recently at Hillsboro, O., at the age of sixty years, was a resident of Maysville in early manhood. In 1850 he started upon the road in the employ of the Fristoe Bros., tobacco merchants, and drove a four-horse team and connectoga wagon over his territory, extending from Maysville north through Hillsboro as far as Circleville, and returning by way of Chillicothe and Waverly. For ten years he continued in the employ of this firm, canvassing this territory, driving over the then untraveled mud roads winter and summer.

SPEAKING of the Blue Ribbon Fair, the Dover News says; Probably the greatest attraction at the fair was the music. Hauck's Reed and Brass Band was stationed in a spacious balcony over the main entrance of the amphitheater and discoursed most delightful selections. This band of sixteen talented musicians is an organization of which Maysville should be proud. Their rendition of the program each day was admirable, and elicited the appreciation of all adepts of the musical art. Their interpretation of several "overtures" and potpourris was exceptionally fine, the different arias being taken with grand effect. The Maysville band is in the front rank of the bands of the West and will hold its place with any competitor."

AM, you lovers of the national game, go to Louisville next Sunday to see the game for that purse of \$500, between the Maysville Browns and Paris Blues. Remember the citizens of Paris have chartered four of the coaches on the special train that will run from here to send a delegation down to see that their boys get fair play. Let Maysville see that our club will also have friends and won't be imposed on. It's the third game between the above mentioned clubs. The first at Frankfort for a purse of \$200, was declared a draw; the second game at Cynthiana for a purse of \$200 was hotly contested and won after the tenth inning by the Paris team, the score being eleven to ten, and as this is the third meeting of these clubs it is looked upon as the game of the season. a27d3t

THE new Constitution majority was underestimated, but that sixty thousand pounds of barb and plain fence wire was not overestimated. Frank Owens Hardware Company can furnish any quantity of it.

If you were born in August, "wear the moonstone, or for thee no conjugal felicity; the August born without this stone, 'tis said, must live unloved and lone." Ballenger, the jeweler, has a full line of lovely birthday rings.

MR. CHARLES CONWAY, of Bourbon County, was in town yesterday en route to South Ripley, to attend the funeral of his aunt, Mrs. Moses Moore. He has not fully recovered yet from the wounds inflicted by the negro murderer Craig.

THE tobacco reports coming in from the country vary considerably, some portions claiming a short crop but others a very large yield. Frank Owens Hardware Company are manufacturing the celebrated Armstrong tobacco knives, and can furnish any number of them to the wholesale trade.

THE next election for Justice of the Peace in Kentucky will take place in November, 1894, and the officers elected will go into office the first Monday in January after their election, and continue in office for three years. In 1897 they will be elected for four years. Each Justice's district is entitled to but one Justice of the Peace under the new Constitution.

Children Enjoy

The pleasant flavor, gentle action and soothing effects of Syrup of Figs, when in need of a laxative and if the father or mother be costive or bilious the most gratifying results follow its use, so that it is the best family remedy known and every family should have a bottle.

MINER'S MAXIMS!

WHAT YOU DON'T KNOW Won't Bother

You, But That's No Excuse For a Want of Knowledge.

The longer you remember some things the worse you are off; the sooner you forget them the better you are off. Certainly you don't need to be told why you go to a Shoe store. You know what your purpose is just as well as you know two and two are four.

To say that your object is to buy a pair of Shoes does not, however, describe the case. Your idea is to procure for what you spend the best that your money will buy. Less than this will not content you; more than this you cannot, in reason, ask.

Our methods are as simple as your desires. We do not lift your expectations to the clouds, but we realize them. Of this you can rest assured: We will never sacrifice your interests to ours.

This is one of the things it will pay you to remember: Nowhere can you get a fuller and fairer equivalent for your money and nowhere can you have a more absolute assurance that your confidence will not be betrayed.

CHINESE EXCITED.

Rumors That Corea Will Have a Russian Protectorate.

CONFLICT LIKELY TO FOLLOW.

Coreans Becoming Tired of the Chinese Yoke and Anxious for a Change—Russia Wants Corea For a Depot for Naval Stories—Other Foreign News.

LONDON, Aug. 28.—A letter from Shanghai says that the Chinese government is very much excited over the report that Corea has agreed to a Russian protectorate. Corea has always been claimed by China as a dependency, and tribute is required, and more or less regularly paid. The Coreans, however, dislike the Chinese yoke, and have always been restive under it.

Surprise is expressed among foreign residents at Shanghai that Russia should take a step, if it has been taken, so likely to provoke a conflict with China. This Russia has endeavored heretofore to avoid, and has surrendered considerable territory in order to keep peace with her Asiatic neighbor. It is said that Russia wants Corea as a depot for naval operations better situated than the barren northeastern shores of Russia in Asia.

Effects Animals and Men Alike.

At Vilna, Russian Poland, the servants of a wealthy man had taught a tame bear, which belonged to him, to drink whisky. The brute was taken into a tavern, and while there stood in a keg of whisky in its anxiety to get at the liquor. The owner, with his children, tried to prevent the animal from doing the damage, whereupon the bear turned furiously upon him and killed him and his three children.

Germans in Damaraland.

A letter from Capetown says Germans in Damaraland are thoroughly sick of their attempt to settle that part of Africa, and that King Kamaharero says they must go home. The king has just been awakened to the idea that the Germans got the best of the treaty, which he signed when drunk, giving them his country for a few trinkets.

French Military Conscription.

France, in the total military conscription for the present year, calls for 188,567 recruits. Of this number 185,897 men will be assigned to the land forces, while the remaining 2,780 men will be detailed to the naval service of the republic.

They Blame McKinley.

The exports from the consular district of Chemnitz during the period from January to July, this year, amounted to nearly 50 per cent. less than for the corresponding period in 1890. The decrease is attributed to the McKinley law.

As to Canada's Corruption.

LONDON, Aug. 28.—In connection with the recent revelations of corruption in Canada, The Chronicle says: "Probably neither America nor Canada is more corrupt than several European countries, including England, were a century ago. We have lived long enough to learn that 'honesty is the best policy,' and it is to be hoped that they may learn the same lesson."

Disastrous Storms in Austria.

VIENNA, Aug. 28.—Disastrous storms and floods have occurred throughout Austria, causing great damage. A church at Tullis on the Italian frontier was struck by lightning and three women killed. The congregation was panic-stricken. One of a hunting party was killed and four others injured by lightning.

The Pope's Latest.

ROME, Aug. 28.—The pope is preparing an encyclical on the different forms of government, his object being to show how much the nations are indebted to the church for conciliatory settlements of differences.

Abandoned the Contest.

LONDON, Aug. 28.—Captain Andrews, master of the Sea Serpent, the little boat in which he was running a race against the Mermaid across the Atlantic, became exhausted, and abandoned the contest.

Appeal to the World for Aid.

PARIS, Aug. 28.—The governor of Martinique has appealed to the world for aid for the sufferers from the cyclone.

CHINESE PIRATES.

The Pieces of a Child's Skin Sent to Its Grandfather to Buy a Ransom.

SAN FRANCISCO, Aug. 28.—Advices from Shanghai state that a gang of 500 armed pirates are creating havoc in the province of Wenchow. Their progress through the country has been marked by the most cruel and cold-blooded crimes. Villages have been burned right and left by them when refused hospitality and the inhabitants, men, women and children slaughtered by the miscreants.

The object of the pirates seems to be to capture influential people and hold them for ransom. They have already seized the grandson and only living relative of a wealthy old man living at Wenchow, and they have sent repeated demands for a large amount of money to the afflicted grandfather accompanied on each occasion by a piece of the unfortunate boy's flesh. One day a slice of his ear; another day a strip of skin taken from his back and so on. Recently the gang has been traveling southward, looting, burning and murdering as they proceeded.

When the consul at Wenchow first became convinced of the alarming state of affairs, he took such measures as were in his power for the protection of the residents. He has been trying to arrange matters with local officials. The number of the pirates are variously estimated but the general opinion is that they muster 400 armed and desperate men.

Coffee pounded in a mortar and roasted on an iron plate, sugar burned on hot coals, and vinegar boiled with myrrh and sprinkled on the floor and furniture of a sick room, are excellent deodorizers.

CHARGED WITH LYNCHING.

The Entire Police Force of Middlesboro, Kentucky, on Trial.

PINEVILLE, Aug. 28.—The entire police force of Middlesboro, from the chief down, are now on trial here charged with the brutal and inhuman lynching of the stonecutter Rossmus, of Cincinnati, at Middlesboro several months ago. The result of the trial is being watched for with great interest.

The lynching for which the officers are charged occurred a month ago. Willis Johnson, the proprietor of a notorious whisky dive in a wild and secluded spot in the vicinity of Middlesboro, with several of his henchmen, went into that city and discharged their firearms. When the police arrived the desperadoes retreated in the direction of their den, hotly pursued by the officers. As the latter neared the den of the desperadoes they were suddenly fired upon from ambush, and two of them were wounded. In the vicinity the man Rossmus was captured and thrown into prison at Middlesboro.

Some time during the night he was taken from prison by an armed mob and hanged to the Twenty-first street bridge. The victim was subjected to the most inhuman cruelties, his skull being crushed and his body pierced with bayonets. The friends of the victim of this outrage say that he did not take part with the desperadoes, and have raised over \$1,000 to prosecute the police force. Private detectives have been working up the case.

KENTUCKY TRAGEDY.

One Man Instantly Killed and Two Others Fatally Injured.

LEXINGTON, Aug. 28.—One of the bloodiest and most unprovoked murders ever committed in central Kentucky was enacted at Georgetown, Scott county, yesterday, in which one of the most prominent citizens and business men of the city was instantly killed, and two others were fatally wounded.

The difficulty started over a watermelon patch. Near Georgetown reside two families by the name of Kendall and Jarvis. The former has a large watermelon patch, and recently they accused the Jarvis boys of cutting their vines. Smarting under the accusation, the Jarvisses went to Georgetown and swore out a peace warrant against the Kendalls.

The trial was set for yesterday morning. When they met in Georgetown the Kendalls opened fire on the Jarvis boys, who were said to be unarmed. In the firing A. J. Montgomery was instantly killed while standing on the street, and the two Jarvisses were each shot near the heart and are fatally hurt. Great excitement prevails, and a mob may be the result. The Kendalls were arrested.

WATER FOR CINCINNATI.

Once Get It Up to the Divide, Gravity Will Do the Rest.

CLEVELAND, Aug. 28.—Mansfield comes forward with the champion idealist in the person of Mr. Charles W. French, president of a big stone company, who proposes a plan for supplying Columbus and Cincinnati with water from Lake Erie. His idea is to tap the lake near Cedar Point and pump the water up to the divide to the vicinity of Shelby, from whence gravity can be depended on to do the work. A company with \$10,000 capital is said to be about to be organized to make a survey, and if it shows the scheme feasible a mammoth corporation will be formed to carry it out.

Wealthy Farmer Poisoned.

FULLERTON, Neb., Aug. 28.—A week ago Frank Vesey, a prosperous farmer, died suddenly at his home. Suspicion was directed toward his wife and their cousin, who was living with them. The stomach was sent to the Omaha medical college for analysis, where arsenic was found in the organ. The cousin had, it is alleged, purchased arsenic at a drug store on two different occasions. Both women have been arrested and will have a preliminary hearing. The suspicion is that they probably poisoned Vesey to get possession of his property, as they were not satisfied with the quiet of farm life.

Wounded Desperado Growing Worse.

COLUMBUS, Ind., Aug. 28.—The condition of William Bullard, the Hope desperado and barn-burner who attempted to assassinate George Rothrock, at Hope, on the morning of July 4, and who is still lying in the hospital of the county jail, is very serious. The wound which Bullard purposely or accidentally inflicted on himself by putting a pistol ball in his breast, is causing him a great deal of pain. He has a sharp, hacking cough, and is liable to grow worse at any time and die. It is necessary to have a nurse sleep with him at nights to watch and assist him.

Union Veterans' Parade.

CLEVELAND, Aug. 28.—The parade of the Union Veterans occurred yesterday, the line of march being shortened on account of the feebleness of a good many of the veterans. The column was a mass of American flags, nearly every member carrying a good-sized one. It made a beautiful sight. The parade was reviewed by the city officials and then the veterans went to Forest City park to hold a picnic. Commander Yoder will announce his staff tomorrow and the Women's Relief corps will choose their officers.

Dying of Lockjaw.

BLOOMINGTON, Ind., Aug. 28.—Word from Bedford states that George G. Dunn, of the law firm of Dunn & Dunn, is dying of lockjaw. A few weeks ago, while leaving his office, he accidentally fell, and his hand struck a nail, which has finally resulted in this trouble. The best surgeons in southern Indiana are in attendance. Mr. Dunn is one of the best known lawyers in the state.

President Harrison's Movements.

WINDSOR, Vt., Aug. 28.—The president has changed his plans and, instead of remaining at Proctor until Saturday, will leave at 11 o'clock Friday, reaching New York at 6:45 a. m. Saturday and going at once to Cape May Point. The president made a speech at the fair grounds at White River Junction and came here as the guest of Senator Evans at luncheon.

SYRUP OF FIGS

ONE ENJOYS

Both the method and results when Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, headaches and fevers and cures habitual constipation. Syrup of Figs is the only remedy of its kind ever produced, pleasing to the taste and acceptable to the stomach, prompt in its action and truly beneficial in its effects, prepared only from the most healthy and agreeable substances, its many excellent qualities commend it to all and have made it the most popular remedy known.

Syrup of Figs is for sale in 50c and \$1 bottles by all leading druggists. Any reliable druggist who may not have it on hand will procure it promptly for any one who wishes to try it. Do not accept any substitute.
